

# Long Tall Cool One (live)

Bruce Hornsby

Is he sane or insane  
That's all they want to know  
Is he crazy or strange then  
If so I want to go  
I've seen him leave at night  
Followed him so far  
Drove out about thirteen miles  
Then he pulled in to a shothouse bar  
For a long tall cool one  
Don't know just what's going down  
Long tall cool one  
Looks like a new friend I've found  
Walking in the shadows  
Now I want back in the light  
As I make the drop I've got some  
Second thoughts tonight  
You see I walked right in, sat right down  
Offered him a light  
Big talk for about thirteen hours  
He said can you help me with a job tonight  
For a long tall cool one  
Don't know just what's going down  
Long tall cool one  
He said some thing's in it for me right now  
I've reached out into the darkness  
Jumped up from my bed  
Woke up in the middle of the night  
Got myself in way over my head  
For the long tall cool one  
Don't know just what's going down  
Long tall cool one  
Looks like a new friend I've found  
Long tall cool one  
But it better never bite me well  
Long tall cool one  
Oh, customer's always right
