

Last Man Standing

Three 6 Mafia

Chorus (4x): You don't know me
My weapon's here to tell ya[Lord Infamous]
Torture til they gone never stay alone killas laser chrome
Hunting in the zone where the enemies roam
Massacre the town fire all yo rounds make em all fall down
Please don't make a sound hear the Devil growl
Please don't go to sleep never go to sleep
You may not awake cause I'm goin to take you deep down beneath
The Scarecrow's in the woods, creeping through the woods
Creeping through yo hood, please don't be so scared
Go and take a look
I got behind the steel, may I be forgiven, I didn't mean to kill
Now I wipe your bone and blood off my windshield
I'm sitting in the park, fire on the lost, watching body parts
Burning into sparks, bloodied on my saw
Lord Infamous is me, psychpathically, driven in the mind
Seek and you shall find my evil is blind
Cause I give a fuck less, color of your flesh, I just want to mess
Up your fuckin chest with my jet black techChorus 4x[Gangsta Boo]
