

Change

Caleb Johnson

Every day I move on a few steps further
I think of you when I fall two steps behind
I've come to face the truth that I never deserved ya
I can't believe that a man could be so blind I never got that close before
I was scared of all those feelings
So I pushed you through the open door
And blamed you for leaving And when I close my eyes
It takes me back in time
And I still see you walk away
I made it so hard
And pushed you too far
And there's no one else to blame
I wish I could change
Yea yea yea I wish I could change I know I can be the hardest pill to swallow
And leave a bitter taste in your mouth
You were the sweetest path I ever followed
And I am just a broken road that you went down I never got that close before
I was scared of all those feelings
So I pushed you through the open door
And blamed you for leaving And when I close my eyes
It takes me back in time
And I still see you walk away
I made it so hard
And pushed you too far
And there's no one else to blame
I wish I could change Yea I know I got a lot to do
But we all got things we gotta work through
And it's about time I start walking on mine And when I close my eyes
It takes me back in time
And I still see you walk away
Yea baby
I made it so hard
And pushed you too far
And there's no one else to blame
I wish I could change
Yea baby
I wish I could change
I wish I could change
