

Starstruck Bastard

[leah andreone](#)

Haunting you, summon me
A star will shoot tonight
I call the shots, I lay the laws
I'm everything you need More than a fan, a prophecy man
'Cuz I could save your life
Repeat after me obsessively
I love you, I love you, I love you School bells screaming
Buses racing me home
Voices speaking
Someday you're gonna run the show Starstruck bastard
No one else matters
Louder gets louder
Stopping gets faster Looks start staring
Hands are daring
No one else matters
Starstruck bastard
Starstruck bastard Seconds last, hours pass
And days never end
Creating a memory
Remembering the things you never said You're the flush before lips crush
The raindrop in the fire
I'm not like the rest an obtrusive mess
'Cuz I love you to death School bells screaming
Buses racing me home
Voices speaking
Someday you're gonna run the show Starstruck bastard
No one else matters
Louder gets louder
Stopping gets faster Looks start staring
Hands are daring
No one else matters
Starstruck bastard Starstruck bastard
No one else matters
Louder gets louder
Stopping gets faster Looks start staring
Hands are daring
No one else matters
Starstruck bastard Starstruck bastard
(I love you, I love you)

Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)Starstruck bastard
Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)Starstruck bastard
(I love you, I love you)
Starstruck bastard
(I love you, I love you)
Starstruck bastard
Starstruck bastard
(I love you)
