No Filthy Nuclear Power

Oi Polloi

Radioactive discharge spews forth from wastepipe
It poisons land and sea
It poisons you and meNO FILTHY NUCLEAR POWERThis filthy stinking waste
They try to tell us it's safe
Try telling that to those dying slowly of leukaemiaAnd while officials lie
Diseased young children cry
Their changce for full and healthy life has been deniedOur planet's slowly dying
The earth is being abused
Yet cheaper and safer alternatives lie unused
