Lazy

itÂ´s a musical

I don't know
It's not you, it's the ones that hurt me
And I just can't afford to be hurt again so
Hold on, I'm not really tryna go through this again
I'm not jumping up and down about love and it seems if
If don't wanna dive back into that pool of love
I'm done swimming, I'm good
See I don't feel like getting to know you
What you like you eat and what you like to do
See that's too much information to deal with
Play the love game with another 'cause I quit
Don't wanna start over again 'cause I've had enough
I don't wanna hurt again, sorry I give up
Already know what I'm missin', pain and heartache
I'm tired of it 'cause my eyes are staying dry now
Don't wanna let another in 'cause I'm cool on that
'Cause it might happen again, got no time for that
And it keeps repeating, see that's insanity
But I'm cured from this disease, can you forgive me?
You gotta forgive me
I know it might sound crazy but right now my heart's a little lazy
I'm tired of opening up, tired of caring
I don't feel like loving you, don't feel like loving you
You gotta forgive me
I know it might sound crazy but who knew love could be so drainin'
I'm tired of opening up, I'm tired of caring
I don't feel like loving you, don't feel like loving you no more
Baby, there's something that you gotta understand
It's not your fault but I've changed my plans
And I've said that before
But now it's different, I really mean it
Oh, see the problem is that I've, I've
Loved so hard and I've got, I've got
Too burned and I'm not going down that road again

'Cause I've found a different route
Don't wanna start over again 'cause I've had enough
I don't wanna hurt again, sorry I give up
Already know what I'm missin', pain and heartache

I'm tired of it 'cause my eyes are staying dry now
Don't wanna let another in 'cause I'm cool on that
'Cause it might happen again, 'cause I got no time for that
And it keeps repeating, see that's insanity
But I'm cured from this disease, can you forgive me?
You gotta forgive me
I know it might sound crazy but right now my heart's a little lazy
I'm tired of opening up, tired of caring
I don't feel like loving you, don't feel like loving you
You gotta forgive me
I know it might sound crazy but who knew love could be so drainin'
I'm tired of opening up, I'm tired of caring
I don't feel like loving you, don't feel like loving you no more
I hope you understand
I mean I wanna love again
I just can't do this anymore
I'm sorry, no more
You gotta forgive me
I know it might sound crazy, but right now my heart's a little lazy
I'm tired of opening up, I'm tired of caring
I don't feel like loving you, don't feel like loving you
You gotta forgive me
I know it might sound crazy but who knew love could be so drainin'
I'm tired of opening up, I'm tired of caring
I don't feel like loving you, don't feel like loving you no more
It might sound crazy, my heart's a little lazy, oh baby
You gotta forgive me
It's not you, it's what I been through
