

If You Don't Know

5 Seconds of Summer

Luke:

Tonight we're fading fast
I just wanna make this last
If I could say the things that I wanna say,
I'd find a way to make you stay
I'd never let you get away
Catch you in all the games we play
So go ahead rip, my heart out,
Show me what love's all about
Go ahead rip, my heart out
That's what love's all about
All: I want you to want me this way
And I need you to need me to stay
If you say that you don't feel a thing
If you don't know, let me go,
Let me go, let me go, let me go
If you don't know then just let me go
Calum:
Let's forget the past
I swear we'll make this last
Cos' I remember the taste of your skin tonight
And the way that you looked, you had those eyes
I remember the way I felt inside
And the name of the songs that made you cry
You would scream, we would fight, you would call me crazy
And I would laugh, you were mad but you'd always kiss me
In the shirt that I had that you always borrowed
When I woke, it was gone
There was no tomorrow
I want you to want me this way
And I need you to need me to stay
If you say that you don't feel a thing
If you don't know, let me go,
Let me go, let me go, let me go
If you don't know then just let me go
Luke:
Go ahead, rip my heart out,
If you think that's what love's all about
Go ahead, rip my heart out
Go ahead, rip my heart out
All: Go ahead, rip my heart out ,
If you think that's what love's all about
Go ahead, rip my heart out

Go ahead, rip my heart out I want you to want me this way
And I need you to need me to stay
If you say that you don't feel a thing
If you don't know, let me go,
Let me go, let me go, let me go
If you don't know then just let me go
