Ride This Out

Imaginary Cities

Just another one of those nights I needed
Staying up late one more time to piece it
All together now, all together now
I'm gonna ride this out
Breaking my back trying to defeat it
Nobody can read in me but I'm depleted
All together now, all together now
I'm gonna ride this outLately I've been losing sleep
Investing myself in this thing
You tell me it's not happening
Well I'm gonna ride this outMaybe I'll be happier in the morning
Something about the sun how it keeps on shining
Sunny weather now, sunny weather now
I'm gonna ride this outBaby's gotta give me a little loving
Show me there is nothing left for overcoming
All together now, all together now
I'm gonna ride this outLately I've been losing sleep
Investing myself in this thing
You tell me it's not happening
Well I'm gonna ride this out
OhJust another one of those nights I needed
Staying up late one more time to piece it
All together now, all together now
I'm gonna ride this out
Breaking my back trying to defeat it
Nobody can read in me but I'm depleted
All together now, all together now
I'm gonna ride this outLately I've been losing sleep
Investing myself in this thing
You tell me it's not happening
Well I'm gonna ride this out
Oh
Oh I'm gonna ride this out
Oh
Oh I'm gonna ride this out
Oh
Oh I'm gonna ride this out
