You`ve Changed

Flaw

We've been through this beforeCompromise
With me agree right now
Useless cries
I'm telling you just how
Paralyzed
There is nothing I can do
I realize
I liked the other youYou've changed
Everything about you is strange
Look at yourself, you've changed
With the facts in your face
It's causing conflictYou've changed
Everything about you is strange
Look at yourself, you've changed
With the facts in your face
It's causing conflictHypnotized
By all your complex games
Sacrifice
My own opinions change
Justify
Just why to stay with you
I can't see why?
Nothing else for me to doIt makes no sense
Putting ourselves through all this
At my expense
Don't I deserve much less?
It's way past time
To right the wrong we're in
The bottom line
No way that we can winYou've changed
Everything about you is strange
Look at yourself, you've changed
With the facts in your face
It's causing conflictYou've changed
Everything about you is strange
Look at yourself, you've changed
With the facts in your face
It's causing conflictYou brought on all this mess
(You brought it all)

My needs were not addressed
(All on yourself)
You caused so much distress
(You're strange to me)
This much you must admitYou brought on all this mess
(You brought it all)
My needs were not addressed
(All on yourself)
You caused so much distress
(You're strange to me)
This much you must admitYou've changed
Everything about you is strange
Look at yourself, you've changed
With the facts in your face
It's causing conflictYou've changed
Everything about you is strange
Look at yourself, you've changed
With the facts in your face
It's causing conflictI'm not the one who changed
I'm not the one who changed
