Remember the Fallen

Sodom

Honor the fallen heroes, see their last resting place
Perished in the battle of nations, where they found eternal peace
Do you know the use of their decorations awarded for patriotism?
They left their life in fire but don't know even whyRemember the fallen
Remember the fallenTo the command of despotic dictators
They marched to fight in a senseless war
Most of them were just puppets and children
The battle was lost before it beganBrotherly in heart and hand
Know that they never come back with combined effort
And the believe in god their duty only as cannon fodder
Kamikaze as living bombs, driven into the open knife
Deceitful and maliciousRemember the fallen
Remember the fallenTheir tormented souls will never rest
To pay us back for their innocent death
No quarter shed our proud blood
Retaliation on the warpath
