

Drug X Free X Youth

Warzone

Think it's fun to get high and drunk?
Maybe even shoot up junk?
It's not cool to be wasted, didn't you know? 'Cause that's all you'll be - with nowhere to go!
We need a - drug free youth, drug free youth, drug free youth!
Can't remember what you did last night - 'cause if you did you wouldn't feel right.
Don't want to know what you may have said - made a fool of yourself in front of your friends.
We need a - drug free youth, drug free youth, drug free youth!
You're just a burnout, you've got nothing worth saying, nobody listens to your complaining.
Shape up man before it's too late - got one life to live - do it straight!
We need a - drug free youth, drug free youth, drug free youth!
