Diana Ross

The Concretes

We're listening to Diana Ross
She sang her song, sang her song
About love hangover, love hangoverSwing 'n' sway, she leads our way
Leads our way, leads our way
Into a love hangover, love hangoverI didn't know what I feared
But do know what I feel
I didn't know what I feared
But do know what I feelFeel no pain with Diana Ross
She leads our way, leads our way
Into a love hangover, a love hangoverI didn't know what I feared
But do know what I feel
I didn't know what I feared
But do know what I feelI didn't know what I feared
But do know what I feel
I didn't know what I feared
But do know what I feelDo know what I feel
I do know what I feel
