

# Lonesome Swan

## Glasvegas

Lonesome swan  
Tell me what is wrong  
So you feel that we've all moved on  
And you're feeling so alone Kids can be cruel, you know that's fair to say  
But remember when the kids once said  
You were queen of the waves  
Upon the ocean bed You were the dream boat, Pedalo  
But now that's all in the past  
But let me say that this loneliness will pass  
And be a part of the past also So for now dust down your weary sails  
For tomorrow is a bright new day  
With someone waiting in the wings  
To pedal with you upon the ocean waves
