Flying High

Agnes Monica

You can't know, oh no You can't know How much I think about you, no It's making my head spin Looking at you And you are looking at me And we both know what we want Hmm, so close to giving in Feel so nice Oh yeah, you feel so nice Wish I could spend the night But I can't pay the price, oh no, no But I'm flying so high High off the ground When you're around And I can feel you're high Rocking me inside It's too much to hide I know, oh yes I know that we can't Be together But, I just like to dream It's so strange The way our paths have crossed How we were brought together Hmm, it's written in the stars it seems Feel so nice Oh yeah, you feel so nice I'd love to spend the night But I can't pay the price, oh no, no And I'm flying so high High off the ground When you're around And I can feel you're high Touching me inside And it's too much to hide Back to earth Where did you take me to I know there's no such thing

As painless love
Well it'll catch us up
And we can never win
But ohh, I feel so alive
Ohh, just wanna hold you
Hold you so tight
And I'm flying so high
High off the ground
When you're around
And I can feel you're high
Touching me inside
And it's too much to hide
And I'm flying so high
High off the ground
When you're around
