

I Drive a Lot

Starflyer 59

And if you mean it a lot
Talking just to waste my day
I drive a lot, I drive a lot Think of things I'd be
With time to kill and just had lots of money
Time to kill and just had lots of money When I'm all worked up
I think of friends of mine
Now thirty five And if you mean it a lot
Talking just to hear myself
I drive a lot, I drive a lot Think of things I'd be
With time to kill and just had lots of money
Time to kill and just had lots of money When I'm all worked up
I think of friends of mine
Now thirty five Time to kill and just had lots of money
Time to kill and just had lots of money
Time to kill and just had lots of money Time to kill and just had lots of money
Time to kill and just had lots of money
Time to kill and just had lots of money
