Way Too Deep

Sixwire

I never meant to fall in love again this way
(Oh, I'm in way too deep)
But there's somethin' 'bout the way she says my name
(I tremble every time she speaks)
I should've learned by now to take it slow
(But down I go)I'm in way too deep, I can't help but love her
Ain't no way to keep me from goin' under
I can't breathe
(I can't breathe)
No savin' me
(No savin' me)I'm in way too deep
(I'm in over my head)
Every little thing she said haunts me in my sleep
I'm in way too deep
(I can't dig my way out)
No livin' without her
(I'm in way too deep)Hey, don't even bother throwin' me a line
(No, I'm in way too deep)
Ain't no need to rescue me 'cause she's so fine
(Can't fight it 'cause her love's so sweet)
She's gonna be the death of me, I know
(What a way to go)I'm in way too deep, I can't help but love her
Ain't no way to keep me from goin' under
I can't breathe
(I can't breathe)
No savin' me
(No savin' me)I'm in way too deep
(I'm in over my head)
Every little thing she said haunts me in my sleep
I'm in way to deep
(I can't dig my way out)
No livin' without her
(I'm in way too deep)
Yeah, yeah, yeahShe's gonna be the death of me, I know
(But it's out of my control)I'm in over my head
Every little thing she said haunts me in my sleep
I can't dig my way out, no livin' without her
I'm in way to deepI'm in over my head, way too deep
Every little things she said haunts me in my sleep

I can't help but love her, ain't no way to keep
(I can't dig my way out)
Me from goin' under
(No lovin' without her)
I'm in way too deepI'm in way too deep, I can't help but love her
Ain't no way to keep me from goin' under
I can't breathe
(I can't breathe)
No savin' me
(No savin' me)I'm in way too deep
(I'm over my head)
Every little thing she said haunts me in my sleep
I'm in way too deep
(I can't dig my way out)
No livin' without her
(I'm in way too deep)Way too deep
(I'm in over my head)
Every little thing she said haunts me in my sleep
Out of my head, no I can't sleep
(I can't dig my way out)
No livin' without her
(I'm in way too deep)
