

# So We Know

## DMA'S

Where you want to be  
I feel nothing at all  
Said she want to stop  
Now she's back on the horse

And I can't be certain  
That pull on the curtain on me  
And if tomorrow's a burden  
Then I'm still learning to be  
Lost you in a state that night  
Realize I can't get it right  
Till I change  
And you go  
And it rain  
So we know

I can't keep on pulling through to now  
And now I know what life's about  
Now you're gone

Standing on the street  
Neon lights on my mind  
I'm chasing liberty  
Cause there's none in my life

And I can't be certain  
That pull on the curtain on me  
And if tomorrow's a burden  
Then I'm still learning to be  
Lost you in a state that night  
Realize I can't get it right  
Till I change  
And you go  
And it rain  
So we know

I can't keep on pulling through to now  
And now I know what life's about  
Now you're gone
