Love Had Something to Say About It

Radney Foster

You thought you had this thing licked
Hide under the covers
When you answer the phone, pretend you're sick
You built that wall around your heart so no one could get to it
You must have missed a spot baby, I went right through itLove had somethin' to say about it
Wasn't gonna let you lay there and cry
Baby, I live just to dry your eyes
Thought you could live just fine without it
Tough out every heartache you hide
But love had somethin' to say about it
Love had somethin' to say about itNothin' lives without water
You live without love so long, you think it's how you oughta
That is the dumbest lie we ever tell ourselves
I'm not tryin' to offend you baby, just show you to the wellLove had somethin' to say about it
Wasn't gonna let you lay there and cry
Baby, I live just to dry your eyes
Thought you could live just fine without it
Tough out every heartache you hide
But love had somethin' to say about it
Love had somethin' to say
