

Sonata

Rinaldo Alessandrini

Sonata, my sonata
I hear your haunting theme
And I begin to dream You linger, my sonata
In every reverie
You bring your love to me Please, play on
Make my dream love stay
When you're gone she fades away Sonata when I find her
Each tender note you play
Will be my serenade Please, play on
Make my dream love stay
When you're gone she fades away Sonata when I find her
Each tender note you play
Will be my serenade My sonata
