# Everlove

## Eric Benet

I never thought it was possible
In my reality
I thought my chances for love were gone
That time ran out for meMy heart has been through some changes
And heaven knows
What I thought was my everlove was so conditionalBut my love
Every day with you I'm so surprised
Morning comes I fall in love again
Each night I'm thanking God you're in my life
I don't know how I know, but this feeling won't be endingYou're my everlove, oh, my everlove
Everlasting through all changes in our lives
Oh, you're my everlove, you're my everlove
Ever growing every day and every night
I found my everloveI'll never ask for perfection
That's how a love can slip away
I only ask for the truth in your heart
The rest we'll work out day by dayYou've seen the best and worst of me
And you're still standing here
Oh, there is nothing that can stop us now
'Cause we've got nothing left to fearThe future will show
The power of a moment just like this
Whatever love can dream we both will know
Whatever we imagine will exist
Every kiss, I swear, my life will be deserving of yourEverlove, oh, my everlove
Everlasting through all changes in our lives
Oh my everlove, you're my everlove
Ever giving, ever learning with every cry
I found my everloveThe winds of change will blow
(Come what may)
Your friends may come, may go
(I'll never go babe)
These struggles in life, they may put us through the fire
But as long as I'm alive I'll be right there by your sideEverlove, oh, my everlove
Everlasting through all changes in our lives
Everlove, you're my everlove
Ever growing every day and every night, oh!I never even got to feel this way
Let's share our life of love together baby
Everlasting through all changes in our lives, oh!Come what may I'm gon' be here with you
Love you forever 'til my life is through

Ever giving, ever learning with every cry
I found my everlove
