

# I'll Call Ya

Chris Brown

Hey, babe, I don't I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya  
Body so sick, gotta get next to ya  
I have been waiting all night long to know your name Everything about ya, girl, I want  
And ya gotta know that  
I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya Girl, maybe we need to spend some time cause you got me going  
And there wont be no playin with your mind  
Cause this is more than before, this is real  
I'm an 18 year old, grown ass man tryin to get in your life, let go of this I don't wanna hurt ya, I just wanna  
know ya  
Give me your script later, baby, I'll call ya  
Body so sick, gotta get next to ya  
I have been waiting all night long to know your name I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya  
Body so sick, gotta get next to ya  
I have been waiting all night long to know your name Everything about ya, girl, I want  
And ya gotta know that  
I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya Most don't get all of that a brain and a face that's so flawless  
Youre such a beautiful girl  
And every fantasy I anytime dream about is all in you  
If I try would you take me where you are  
That place that many won't ever get a chance to see? You've been so cold  
Maybe if you let me your flame will be on again  
Tell me what you want  
Cause I won't sleep, I won't cheat  
Love me with all that you give I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya  
Body so sick, gotta get next to ya  
I have been waiting all night long to know your name I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya  
Body so sick, gotta get next to ya  
I have been waiting all night long to know your name I've been thinkin bout the way  
That I'm gon take you down  
Ain't no way that you would be in need  
Cause you'd be all I'm thinkin bout, ain't no way I don't wanna hurt ya, I just wanna know ya  
Give me your script later, baby, I'll call ya  
Body so sick, gotta get next to ya

I have been waiting all night long to know your name I don't wanna hurt ya, I just wanna know ya

Give me your script later, baby, I'll call ya

Body so sick, gotta get next to ya

I have been waiting all night long to know your name I don't wanna hurt ya, I just wanna know ya

Give me your script later, baby, I'll call ya

(Tell me what I gotta do, I mean) I don't wanna hurt ya, I just wanna know ya

Give me your script later, baby, I'll call ya

(Dang, I got the list right here cause it's exclusive now) I don't wanna hurt ya, I just wanna know ya

Give me your script later, baby, I'll call ya

(If you want it alright, I'ma hit you up later) 2 up, 2 down, I see you

Lets go, yes sir, peace

And now you know

I'm out, peace
