

# Lullaby

## Dynamite Boy

lullaby playing in my head  
volume's loud enough to wake the dead  
terrified that i might really be  
what everyone else thinks of me  
and i happened all the time  
i left it all behind  
when i was young i always needed help  
i never had the nerve to be myself  
recognize that i will never care  
who am i to way just what is fair  
compromise my position is clear  
but i never thought it'd get me here
