Good News

Unkle Adams

Lyrics to Good News Uncle Adams

Trust me

I know that life can be very difficult sometimes

But no matter what happens
I want you to remember

That everything can change in just one day

So keep working and never give up.

Because you never know how close you are to some good news

You never know how close you are x3

to good news.

You never know how close you are to good news

Yeah

Even when this life passes you singing the blues

Why's that?

Because alot can change in one single day

That's true

you gotta keep the faith and know it's never to late

Sitting on the park bench

Surrounded by darkness

Let go as the manager riped up his department

He was that told that he lacks what they need

His so hurt that he can't even breath

So there he sits with his hands on his knees staring down at the ground with his pants and his feet

Where he happens to glance at an old magazine

And he picks up sits back and starts to read

When he starts to read his heart starts to beat

There's an article in it on over coming defeat

And he reads there's some things that just not meant to be

And they wants you not take them so personally

And It's not hard to believe that this part is to believe and its hard so we started to work and achieve

And if he ever let go then today wouldn't be the successful CEO of his own company

You never know how close you are to good news

Yeah

Even when life's passing you singing the blues

Why's that

Because alot can change in one single day

That's true

And you gotta keep the faith and know its never to late

Here we go

As a mother of three kids she worked the weekend

The kids were well fed they slept in clean beds

Work, cook, sleep, wash dishes repeat

It was work, cook, sleep, wash dishes repeat

Until a yearly physical turned out to show that a lump in her lung was beginning to grow out of control

So they waited for the test results

It's was sore in the area her chest was poped and got worse as soon as it was confirmed as cancer

But she took it bravely as the time went pass and came out from there where she can barely stand let alone try alone three kids around

Thanks to lots of equipment, doctors and hospital visits

They were finally able to beat it into permission

She found a lottery ticket inside of a get well soon card

Guess who won the Jack pot and bought a new car

You never know how close you are to good news

Yeah

Even when there's life's passing you singing the blues

Why's that

Because alot can change in one single day

That's true

And you gotta keep the faith and know its never to late

As long as your still breathing and your heart still beating

Its never to late
