Afterplay

Silk

Mmm, Silk's in the house
When you get good love, you get foreplay
When you get great love, you get afterplay
Welcome to afterplay
This is just an extra music afterplay
To bless that body
Just to make you feel good
Like you 'spose to
This is just an extra music afterplay
To bless that body
Just to make you feel good
Like you 'spose to
Hey ladies, say ladies, let us in
Or we'll huff and we'll puff and commit a sin
When we're, we're done and the love session ends
We'll think of something else that's all I'm sayin'
So don't be flexin', don't be flakes
So y'all [Incomprehensible] like ladies?
That's no question, that's no question
And in your eyes the passion lies beneath
But it's okay, I got you girl
Ladies
This is just an extra music afterplay
To bless that body
Just to make you feel good
Like you 'spose to
This is just an extra music afterplay
To bless that body
Just to make you feel good
Like you 'spose to
It's the way you brought the chorus
It's the way you hold my verse
It's the way you shout it, damn, that's tight
As your body quench my thirst
Musically, it was ecstasy
It felt so good
The lyrics melted in your mouth
But your body understood
We sang lullabies and made you cry

We tried to touch you deep inside
It's afterplay, an afterlude
To get you back into the mood
So let's do this thing, one more care
Rewind the track 'cuz Silk is here
Don't rush, take it slow
Here you come, here we go
This is just an extra music afterplay
To bless that body
Just to make you feel good
Like you 'spose to
This is just an extra music afterplay
To bless that body
Just to make you feel good
Like you 'spose to
It's suppose to taste good and feel good
And smell good and sound good
Is it good, yeah?
Just a little something extra for you body
Make you feel good, make you feel good
It's suppose to taste good and feel good
And smell good and sound good
This is just an extra music afterplay
To bless that body
It's suppose to taste good and feel good
And smell good and sound good
This is just an extra music afterplay
To bless that body
It's suppose to taste good and feel good
And smell good and sound good
