Holy mountain (live 1994)

Sleep

Slumber killed by rays of the new red sun arising
Dreamer wakens to spectral gaze of light rays shining
Black steed carries him across the astral sand
Rides alone is the man from the magic caravanI believe the signs of the reptile master
Sun bound space pod rising faster
Earth drenched in black under starless sky above
Man on the mountain sets free the holy doveLook onto the rays of the new stoner sun rising
Sonic Titan rides out on clouds of new horizon
Look onto the rays of the new stoner sun rising
Sonic Titan rides out on clouds of new horizon
