

# Drinkin' About You

Mikel Knight

Chorus:

I been drinkin' about you,  
Don't know who to blame.  
While I'm out here chasin' dreams,  
You just think I'm playin' games  
But that couldn't be further from the truth,  
Someone drinkin' 100 proof.  
No one calls me to check on me,  
I miss you missin' me.  
That's why I'm drinkin' about you,  
Every day is the same  
I just grab those reigns and make my way,  
I'll try not to stray while ceasing the pain.

Verse 1:

I'm just sittin' at the bar, lettin' my heart bleed,  
Thinkin' how in the hell could this happen to me  
The say that I met you is like I captured a dream  
But now my life's a nightmare, this ain't the way it should be  
How could I be your star, how could this be so hard?  
How could you be so hard to cut me and leave me scars?  
I'm all alone at the bar, thinkin' about the days  
It's making me fall apart, my life should be on stage  
and keeping the bills paid and thinkin' bout my family,  
I'm tryin' to provide, I guess it's just the man in me  
On the brink of insanity, sittin', thinkin', and drinkin'  
Why couldn't you just stand by me instead of you just leavin'  
Didn't have a good reason and that's not what we talked about  
Instead of you just walkin' out we should've stopped and talked it out  
What was you talkin' bout, when we was at your mama's house  
I'm so confused bartender please send another out.

Repeat Chorus

Verse 2:

It shouldn't be a surprise, you knew what you was in for  
Early mornings, long days, late nights, long tours  
And I'm a long horn I even moved to Tennessee  
Another shot of Hennessy so I can drown the memories

I hope that you remember me so I don't hurt alone  
Tired of fightin' on the phone, we broke up a happy home  
And what about the baby, that's something we failed to mention  
Another piece of me missin', you shoulda shut up and listened  
I miss the lullabys puttin' my youngin' to sleep,  
Now I can't even see her, that's another reason to drink  
You say that I'm never there, I say that you outta touch  
You say that I never care and told me I drink too much  
I think that you outta line whenever you say whatever  
And yeah, I think you lying so it's cool, it's whatever  
Keep thinkin' what your thinkin', keep thinkin' that I'm cheatin'  
But girl you're dead wrong, that's the reason that I'm drinkin'

Repeat Chorus

Verse 3:

As I order me a triple, my tears start to triple  
Standin' at the wishin' well, I'm down to my last nickel  
A sad song in the juke box, a tear in my beer  
I'm still cryin' for you dear, and wishin' that you was here  
Still glued to the bar stool, fumblin' my glass  
Thumpin' my empty mug like it's a thing of the past  
Everytime I get a text I'm still hopin' that it's you  
And baby I'm so confused like maybe we ain't through  
Slammin' my last drink cause this is the last call  
Still checkin' on my phone and hopin' for missed calls  
At the bottom of my drink, this is my last chance  
They're playin' the last song and this is the last dance

Repeat Chorus
