

# Dallas

## Jack Ingram

Dallas packed her suitcase and drove off in the brand new car I bought her  
She made leaving me look easy, I wish she'd made it look a little harder  
    I took her out of Texas when she was just a girl  
    But old Tennessee and me couldn't take Texas out of her  
        On how I wish Dallas was in Tennessee  
    If I could move Texas east, then she'd be here with me  
        Then nothin' else would come between the two of us  
            If Dallas was in Tennessee  
By now she's leaving Memphis and everything we had behind her  
    Lord I hope the gold band on her hand will serve as a reminder  
        That true love is a treasure, that's very seldom found  
    But you can't stay together if there's no common ground  
        Oh how I wish Dallas was in Tennessee  
    If I could move Texas east, then she'd be here with me  
        Then nothin' else would come between the two of us  
    If Dallas was in Tennessee, oh if Dallas was in Tennessee  
        Dallas packed her suitcase  
        And drove off in the brand new car I bought her
