The Saints

Josh Wilson

To those whose steps aren't steady
To those whose hearts are heavy
To those whose faith is all but gone
To those that struggle on, struggle onOh, come and lay your burdens down
Come and lift your empty hands
You are not alone, we are not alone
So hold onTo all the saints that keep on praying
And all the children that keep on waiting
And all those that sing the Savior's songLift your heads up and keep on living
Hold tight to the hope we are given
For we know that we won't be waiting long
I know we won't be waiting longCan you hear the music playing?
Can you feel the dream is waking?
We are running towards redemption, yeah
We are never standing stillThrough the problems and the pain
Through the striving and the strain
You are not alone, we are not alone
So hold onTo all the saints that keep on praying
And all the children that keep on waiting
And all those that sing the Savior's songLift your heads up and keep on living
Hold tight to the hope we are given
For we know that we won't be waiting long
I know we won't be waiting longHe is coming soon, He is coming soon
He will take His bride, He will make her new
He is coming soon, He is coming soon
To carry us homeHe is coming soon, He is coming soon
He will take His bride, He will make her new
He is coming soon, He is coming soon
To carry us homeHe is coming soon, He is coming soon
He will take His bride, He will make her new
He is coming soon, He is coming soon
To carry us homeTo all the saints that keep on praying
And all the children that keep on waiting
And all those that sing the Savior's song, c'monLift your heads up and keep on living
Hold tight to the hope we are given
For we know that we won't be waiting long
I know we won't be waitingTo all the saints that keep on praying
And all the children that keep on waiting
And all those that sing the Savior's song

Hold on, hold on, hold onLift your heads up and keep on living
Hold tight to the hope we are given
For we know that we won't be waiting long
I know we won't be waiting long
So just hold on'Cause He is coming soon, He is coming soon
He will take His bride, He will make her new
He is coming soon, He is coming soon
To carry us homeHe is coming soon, He is coming soon

To carry us homeHe is coming soon, He is coming soon
