# Fade Away

## Automatic Loveletter

Can somebody show me
How to live that way?
'Cause it's easy to hide your face
When everyone looks the same
Simply living
Color coded
Now that I match your look
Can everything be okay?

And I don't want to fade away
Let the days go so quickly
And I don't wanna fade away
Let the days go so quickly

Cause this night is for the chances
So dance around the crashes just to survive
To survive
Cause these wounds will hide and blood will dry
But baby we're still alive tonight

I don't wanna fade away
Like the songs
In sad stories
Something to lose
And angels and demons
Have nothin' left to prove

Well I don't want to fade away
Let the days go so quickly
And I don't wanna fade away
Let the days go so quickly

Cause this night is for the chances
So dance around the crashes just to survive
To survive
Cause these wounds will hide and blood will dry
But baby we're still alive tonight

I wanna wake up
I wanna wake up

I wanna wake up now

And I don't wanna fade away
Let the days go so quickly
Cause this night is for the chances
So dance around the crashes just to survive
To survive
Cause these wounds will hide and blood will dry
And baby we're still alive tonight

I don't wanna fade away
Let the days go so quickly
And I don't wanna fade away
Let the days go so quickly
