

# It's What You Do

Alan Guno

When days are going crazy  
The world can make you lazy  
You're caught up in a haze that won't let you go  
The borders in your mind bring problems and you find  
It's hard when you're in a bind to live what you know  
Words are empty  
And they don't mean  
That your duties are anywhere but your hands  
Every ocean  
Needs some motion  
You gotta get on up and do what you can  
No words can take the place of action  
No talk can change the truth so  
Stand Up It's not enough to say it  
Your faith is measured by the things that you do  
There's more to every season  
Than logic, rhyme and reason  
People won't always know the plans in your head  
If you ain't always reachin'  
To practice what you're preachin'  
What good is anything that you may have said  
Faith is empty  
When you don't see  
That your creed is not just some words you pray  
What's compassion  
If it's just fashion  
What good's the map if you don't follow the way  
No words can take the place of action  
No talk can change the truth so  
Stand Up It's not enough to say it  
Your faith is measured by the things that you do  
Run where the road will go  
Live what you think you know  
Love is a gift you share  
Working will be your prayer  
Actions the price you pay  
For the gift of each day  
I don't care what you say  
It's what you do  
Now's the time to leap  
Though it's not easy  
And miracles can't sleep  
In your head  
But how would someone act, if you really  
If you believe a man can rise from the dead  
No words can take the place of action  
No talk can change the truth so  
Stand Up It's not enough to say it

Your faith is measured by the things that you do  
No words Can take the place of action  
No talk can change the truth so  
Stand Up Its not enough to say it  
Your faith is measured by the things that you do  
Run where the road will go  
Live what you think you know  
Love is a gift you share  
Working will be your prayer  
Actions the price you pay  
For the gift of each day  
I dont care what you say  
Its what you do
