

# Don't Leave Me Lonely

## Mala Vita

I stopped to think, I start to drink  
And I know you're right  
I'm back in town just let me stay  
Another night  
I'm not the one you're not the two  
And you know it's true  
I could never fall in love with you  
But don't leave me alone here

Pa pa padapa pa da  
Don't leave me lonely  
Don't leave me alone here  
Don't leave me lonely  
You're the one and only

To bring me down

Don't wanna spend another day  
With you  
Don't wanna be here  
I hope you feel like I do  
'Cause you know it's better  
I'm not the one you're not the two  
And you know it's true  
I could never fall in love with you  
But don't leave me alone here

Pa pa padapa pa da  
Don't leave me lonely  
Don't leave me alone here  
Don't leave me lonely  
You're the one and only

To bring me down

Let me hangover for a bit to explain you  
What this is  
What you don't get, what you will regret  
Here have another cigarette  
I saw you leaning at the door

And your eyes were begging for you  
And I hid my face and I crawled away  
Don't know where to stay or to go  
But when I think again i'll know

Don't wanna spend another day with you  
I don't wanna be here  
I hope you feel like I do  
'Cause you know it's better  
I'm not the one you're not the two  
And you know it's true  
I could never fall in love with you  
But don't leave me alone here

Pa pa padapa pa da  
Don't leave me lonely  
Don't leave me alone here  
Don't leave me lonely  
You're the one and only

Don't leave me dry tonight
