Animosity

Chaheem Gordon

It hurts, It hurts yea 4x

Stuck in my brain
Stuck,stuck in my brain
Drives me insane, drives drives me insane
Stuck in my Brain

Stuck in my brain, stuck stuck in my brain
Drives me insane, drives drives me insane
And then it hurts to think, hurts to think
Had to much to drink, to to much to drink

This Animosity, yea this Animosity
Inside it's killing me, kill kill killing me
This Animosity, Animosity
Is what has driven me, what has driven me

This Animosity, yea this Animosity
It is deceiving me, it's deceiving me
And found it hard to breathe, hard to breathe
Let me up I'm bout to sink, bout to sink

Bringing me down,can't touch the ground
It impairs me, I don't ever hear a sound
Now my head is high, I see the sky
And the stars above, I can't get no love

It hurts, It hurts me
Don't deserve, deserve these
All kind gifts ,kind gifts
That you give to me

Can't see, can't see straight
Held down, by this weight, this weight
You betrayed me, betrayed me
And then flew away, away

This Animosity, yea this Animosity
Inside it's killing me, kill kill killing me
This Animosity, Animosity

Is what has driven me, what has driven me

This Animosity, yea this Animosity
It is deceiving me, it's deceiving me
And found it hard to breathe, hard to breathe
Let me up I'm bout to sink, bout to sink

Bringing me down,can't touch the ground
It impairs me, I don't ever hear a sound
Now my head is high, I see the sky
And the stars above, I can't get no love

Falling down hard
My face splattered on that car
That you drove straight into my heart
Oh No

This Animosity, yea this Animosity
Inside it's killing me, kill kill killing me
This Animosity, Animosity
Is what has driven me, what has driven me

This Animosity, yea this Animosity
It is deceiving me, it's deceiving me
And found it hard to breathe, hard to breathe
Let me up I'm bout to sink, bout to sink

Bringing me down,can't touch the ground
It impairs me, I don't ever hear a sound
Now my head is high, I see the sky
And the stars above, I can't get no love
