Guilty

Flyleaf

you always said the plan needs to be
for our standings in humanity
and it still make perfect sence to me
except we cant keep them can we
we are all guilty
not being all we should be
look your ownself and see
his voice cuts through the war in my head screaming something i could understand
and some how he knew me when he said
is there anyone who is desprate
or anything more than that
i need anyone whos desprate
or anything more than this

we are all guilty
not being all we should be
look your ownself and see
we all guilty
i am so guilty
no body move
i want that person to hear me
yes i 'm talking to you
if you dont believe then
believe!
lift up ur arms open ur hands
be seen
i'm free
i'm free!
