Seany Boy (Drop Out)

The Samples

Seany boy
Better get yourself in school
The teachers called to say you're just a foolBut the end is near in their eyes
And the road seems clear in your skies
Seany boy better get yourself in schoolLive alone be a loser all your life
And they also said you'd never find a wifeBut I'll prove to me and not to them
I'll find a place inside the wind
Seany boy better get yourself in schoolFor people that know so much about this life
They love to stab and jab you with that knife
But the knife's too short to penetrate
Because my mind's too small to calculate
Seany boy better get your butt in schoolIt's funny we all find out we die
Supposedly our souls head for the sky
But I'll prove to me and not to them
I'll find a place inside the windSeany boy better get yourself in school
Seany boy better get your butt in school
Seany boy better get your ass in school
