

# First in Line

Matthew Mayfield

Constricted dreams that sleeps in my mind  
Now seem to guide me in my daily life  
I raise a glass for, those tears gone by  
A ray of hope upon my newborn eyes I'm turning to the window  
Full of memories  
I'm turning to the frontstep  
With keys I'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stone I'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stone Getting first in line, getting first this time  
Letting everything go  
Getting first this time, getting first in line  
Let the whole world know This mighty sword's full of dust but it thrives  
I wipe it clean and let it come alive  
I'm all made up by the things that I feel  
Too many words can turn your heart in to steel I'm turning to the window  
Full of memories  
I'm turning to the frontstep  
With keys I'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stone I'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stone Getting first in line, getting first this time  
Letting everything go  
Getting first this time, getting first in line  
Let the whole world know I'm turning to the window  
Full of memories  
I'm turning to the frontstep  
With keys I'm gonna get first in line  
From a jack to a king

Wanting everything  
Gonna get first this time  
Letting go, my heart of stoneI'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stoneI'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stoneI'm gonna get first in line  
From a jack to a king  
Wanting everything  
Gonna get first this time  
Letting go, my heart of stoneGetting first in line, getting first this time  
Letting everything go  
Getting first this time, getting first in line  
Let the whole world know
