

Lose Urself

Family Force 5

You stand there with your long black hair
Looking so fresh with your Savoir Faire
You've got the coolest friends
They're up to date with the latest trends Independent in your own world
Rock the life, girl, rock the life, girl
The DJ starts to play underground hits
From 'What's their name?' You're looking kind of anxious your
With your back up against the wall
Don't this kind of music
Make you want to move at all? Don't you walk away from me
'Cuz I got to get you next to me
If you've got game, girl, step to me
Lose them friends and dance with me Dance next to me, dance next to me
Oh please, oh please, oh, can't you see
That I got to get you, baby
To lose urself with me? I must say that you captivate
In so many ways that I can't relate
But I want to be your latest thing
For you, girl, I'd do anything I've never been attracted
To a girl that's quite like you
We've got more in common
Than you think you make me move Don't you walk away from me
'Cuz I got to get you next to me
If you've got game, girl, step to me
Lose them friends and dance with me Dance next to me, dance next to me
Oh please, oh please, oh, can't you see
That I got to get you, baby
To lose urself with me? To lose urself with me
To lose urself with me
To lose urself with me Lose urself, lose urself
Just lose urself, lose urself Don't you walk away from me
'Cuz I got to get you next to me
If you've got game, girl, step to me
Lose them friends and dance with me Dance next to me, dance next to me
Oh please, oh please, oh, can't you see
That I got to get you, baby
To lose urself with me? To lose urself with me
To lose urself with me
To lose urself with me

To lose urself with me
