Stay Vicious

[The Gaslight Anthem](#)

Well I feel just like a stranger
I don't sleep at all anymore
And the arms that used to hold me
Well now they done me harm
And I feel just like a murderer
And I feel just like a gun
I've been shakin' in the hands of somebody
Who's finally had enoughAs you step out into the city
No one to find you or recognize
As your black heels kick out the beat
Of my heart in perfect time
Singing la la la la la lala la
Look at you saving my life
Singing la la la la la lala la
Tonight you're saving my life, yeahNow I've had the saints and patience
And I wait on the telephone
I have bills for this
Tabs for that
Something that used to resemble a soul
So won't anybody take my hand
And won't anybody ease my ache
And I still love rock 'n roll
And I still call somebody babyAs you step out into the city
No one to find you or recognize
As your black heels kick out the beat
Of my heart in perfect time
Singing la la la la la la la la
Look at you saving my life
Singing la la la la la lala la
Tonight you're saving my life, yeahAs you step out into the city
No one to find you or recognize
As your black heels kick out the beat
Of my heart in perfect time
Singing la la la la la la la la
Look at you saving my life
Singing la la la la la lala la
Tonight you're saving my life, yeah
Singing la la la la la la la la
Lean on the end of the knife

Singing la la la la la la la la
Tonight you're saving my life, yeah
