Close 2 Me by MannyJames

VERSE1

You got that thing that I want, It's the way that you move it and don't, Don't you stop what you're doing cause I, I like watching how you move to the beat
I can't help it but to stare, got the tempature rising up in here and there's beautiful woman everywhere, but your the only one that I see....

Chorus

I gotta get you alone
Let's find a place we can go
And I don't care who knows
Cause I gotta get you close to me

Repeat

Verse 2

You got that thing that I need
And you're making it hard for me to breathe, there's a fire burning deep inside of me, burning hotter as you move to the beat
I can't help it but to stare, got the tempature rising up in here and there's beautiful woman everywhere, but your the only one that I see....

Chorus 2 x
