

Above Me (Demo Version)

Rufio

If I was to walk till time saw no end.
If I was to climb till the air was too thin.
I could not find a picture fit the frame.
As perfect as you.
As perfect as you. You showed me life and lived nothing less.
I'll take my time you memory is bliss.
The angel above me.
This is all above me. When I look at the stars they shine of your eyes.
The sky it burns bright with your presence tonight.
Yet your so above me and I cannot fly. To the angel above me I long to be with. With. To look at the mountains
vast and great.
Angel above me.
To the angel above.
Is one step above in seeing your face.
To look at the stars for they lead the way.
If I were to walk till time saw no end. If I were to climb till the air was too thin.
I could not find a picture fit the frame.
As perfect as you.
As perfect as you. You showed me life and lived nothing less.
Yet you're so above me.
The angel above me.
I'll take my time you memory is bliss. The sky it burns bright with your presence tonight.
To the angel above me I long to be with. With.
When I look at the stars they shine of your eyes.
Yet your so above me and I cannot fly. Angel above me
