

# While You're Still Young

Montgomery Gentry

Blowin' out spring break  
With your not right friends  
Wake up on the beach  
With new ink on your skin Do something crazy and dumb  
While you're still young Go on and tie the knot  
Start a new life  
Take turns gettin' up  
When the baby cries Living on nothin' but love  
While you're still young Life is too short  
To put it off anymore  
You've gotta live it before  
It's too late I can't turn that clock back around  
On what you're dreamin' about  
You better do it now  
Don't wait Give 'em your two-weeks  
At the dead-end job  
Do what you love  
Be your own boss Do what they say can't be done  
While you're still young Life is too short  
To put it off anymore  
You've gotta live it before  
It's too late I can't turn that clock back around  
On what you're dreamin' about  
You better do it now  
Don't wait, don't wait Take a gold watch  
Sell everything  
Throw a dart at the map  
Hook up the air stream Ride into that setting sun  
Do something crazy and dumb  
While you're still young  
While we're still young You're still young
