Matter of Time

Shannon Hurley

Tired of waving goodbye
You kept out of sight
Lost in confusion
Still I don't know why
You covered your eyes
Is it just an illusion?
Well I know

It's just a matter of time
Just a matter of time
Before you give it a try
Just a matter of finding the way to your heart
And the way to your mind
I just want to show you
I've got so much love inside of me
Unlock these dreams that I keep buried
Deep inside the heart of me

I spent my days half asleep
Lost in a dream
But I'm ready to wake up
Your smile came out of nowhere
This could be a sign
Something's ready to shake up
Well I know

It's just a matter of time
Just a matter of time
Before you open your eyes
Just a matter of finding the way to your heart
And the way to your mind
I just want to show you
I've got so much love inside of me
Unlock these dreams that I keep buried
Deep inside the heart of me

Ohh
It gets so hard
To see you pass me by

All I want is to be alone with you tonight

It's just a matter of time
Just a matter of time
Before you open your eyes
Just a matter of finding the way to your heart
It's just a matter of time
I just want to show you
I've got so much love inside of me
Unlock these dreams that I keep buried
Deep inside the heart of me

I just want to show you
I've got so much love inside of me
Unlock these dreams that I keep buried
Deep inside the heart of me

It's just a matter of time
It's just a matter of time
It's just a matter of time
