

If I Could

Erasure

Make the world a little better I don't believe you know
What you're talking about
I don't believe you'd go
And ever find out for yourself Always got a lot to say
Well, I'm not listening anyway
I'm not listening anyway If I could
(Make the world a little better)
You know I would
(Make the world a little better)
If I could
(Make the world a little better) I don't believe you care
About the consequences
I don't believe you share
In what you know we know is true Turning keys and locking doors
I won't accept that anymore
Won't accept that anymore If I could
(Make the world a little better)
You know I would
(Make the world a little better)
If I could
(Make the world a little better) I don't believe you know
About the hearts you've broken
I don't believe you show
What your intentions really are Can you hear what have you done?
There's not enough for everyone
Not enough for anyone If I could
(Make the world a little better)
You know I would
(Make the world a little better)
If I could
(Make the world a little better) If I could
(Make the world a little better)
You know I would
(Make the world a little better)
If I could
(Make the world a little better) If I could, you know I would
If I could, you know I would
If I could, you know I would
If I could, you know I would
