

What Did I Do to Your Heart

Jonas Brothers

Baby girl, I'm just a bit confused
You've been acting like you've been abused
By me lately, what's going on? All I do is treat you with respect
All the best and never nothing less
You continue to cry and I just don't know why What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it? Your heart What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it? Your heart All I ever get is attitude
Constant never ending bad mood from you, baby
What's going on? All I need is just an answer, please
So I can show you what you mean to me
But you continue to cry and I just don't know why What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it? Your heart What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it? Your heart
Whoa What did I do to your?
What did I do to your?
Yeah What did I do to your heart?
What did I do to your heart?
Did I break it apart?
Did I break it? Your heart What did I do to your heart?
Tell me, what did I do to your heart?
Did I break it apart?
Did I break it? Your heart
