Power Mustache

The Vandals

Mustache is a symbol of repression and of hate Never trust a man with a butt broom on his face It's the facial marking of the man who holds you down The source of all your problems, every city, every town Stalin, Hitler, Schneider, just to name a few got to kill the mustache before it grows on you Fight! The mustache power! (x3) Fight! Fight! Fight! Mustache is authority The world is run by assholes They try to run our lives from their golden mustache castles The Dark Prince was a nazi, his mustache true to form instead of arm-band swastikas, mouse ears must be worn He terminates employees with the hair above his lip 'cause in the Fuhrer's kingdom it's dictatorship We should take his frozen corpse and shave his fascist face and make the magic kingdom a truly happy place Fight! The mustache power! (x3) Fight! Fight! Fight! Pigs across the nation dressed in uniform with their gun and badges, a mustache must be worn they beat the population with their clubs inflicting pain with mustache anonymity, they all look the same we must join together till the mustache is removed and then we'll have a party with beer and chicks and food.Fight the power! Fight the power mustache! Fight the power! Fight the power mustache!
