

# Eternal Love

## JÃ¼rgen Fastje

[intro solo: Maglio]Heaven, it seems so close when you're by my side

When we're together it's paradise

There's nothing in this world that brings me greater joy

As when I look into your eyesI never wanted anyone so much beforeI call you up just so I could hear your voice

Your laughter is music to my ears

Your gentle touch sends shivers down my spine

My passion soars when you are nearMy love for you grows stronger day by day

My heart belongs to you, believe me when I sayMy life means nothing without you

I feel such joy when we're together

With all my heart I cherish you

I want to make you mine forever my loveTo kiss your tender lips and feel your warm embrace

When you're upset, to make you smile

To whisper in your ear and take you by the hand

I'd travel for one million milesThe thought of losing you is just too much to bear

Just hear these words and you will see how much I careMy life means nothing without you

I feel such joy when we're together

With all my heart I cherish you

I want to make you mine forever my love[solo: Durfy]
