

# Don't Go Into Politics

## Arrogant Worms

George Washington was the president

But now he's dead (dead)

Mackenzie King was Prime Minister

But now he's dead (dead)

So don't go into politics

You'll end up dead

Don't go into politics

You'll end up dead

Offenheimer built the bomb

But now he's dead (dead)

Einstein was very very smart

But not enough not to be dead (dead)

So don't go into science

You'll end up dead

Don't go into science

You'll end up dead

And don't go into politics

You'll end up dead

Don't go into politics

You'll end up dead

Jimi Hendrix, Janice Joplin, Brian Jones, Keith Moone,

Jim Morrison, Roy Orbison,

John Lennan, Bob Marley, Leonard Bernstein, Elvis Presley

Well, we're not too sure about Elvis

But I think you get the point

Don't go into music

You'll end up dead

Don't go into music

You'll end up dead

And don't go into science

You'll end up dead

Don't go into politics

You'll end up dead

Break it down

You'll be burned, you'll be fried

You'll be buried alive

And there's no hope thinkin'

That you're gonna survive

'Cause there's the drowning and choking

And cancer from smoking  
And smothered while sleeping  
And blood will start seeping  
So I have found, you'll end up in the ground  
And you'll be dead  
So I have found, you'll end up in the ground  
I wish there was an option instead  
But you'll be dead  
Dead  
Maybe with a bullet in your head  
But you'll be dead  
Dead  
Very, very, very, very, very, very, very, very, very dead
