## De Sjonnies

Stumbling, falling, crawling  
trying to reach for you  
first time I missed you  
made a turn and lost my shoe  
oh my dear street light  
you keep me warm at nightmy wonder wonder wonder wonder shining star  
wunderbar wonder shining starHave you ever asked me  
where I am coming from  
have I ever told you  
why I am so alone  
oh my compassionate light  
talk to me when I am tightmy wonder wonder wonder wonder shining star  
wunderbar wonder shining starRemember our first aquitance  
at your iron post  
sat in my car when  
all at once my life got lost  
I keep a firm hold on you  
until the morning bluemy wonder wonder wonder wonder shining star  
wunderbar wonder shining starGlittering snowflakes  
under your golden glow  
wrap myself up well  
in my woolen coat  
I am lying at your feet  
sweet guardian over my sleepmy wonder wonder wonder wonder shining star  
wunderbar wonder shining star
