

Don't Worry

Glenn Lewis

Dont I love you x7

Ooh yeah

Listen just once I wanted to introduce to you a different side

And just once I wanted to express myself without making you cry.

And just once I wanted you to see just what you bring into my life.

I know I dont say it most times but I wrote this song to tell you its alright. So dont you ever worry if Im still your man?

Dont you ever worry coz I got your back.

Baby dont you worry if Im coming home.

Dont you ever worry coz Im coming home.

Ill give you my heart, my soul, my body, my love, my money, my time , my all

I tell you the truth no lies just you and I you dont have to worry not at all. Ooh no. Just once I wanted to tell you that Im more than just the sex yeah.

And just once I wanted to say that when I walked out I regret it and when I cussed I regret it

Please dont think of me as one that makes you cry. Please dont think of me as one who tells you lies.

Oh gurl think of me as one who loves your soul. And think of me when you need someone to hold. Dont you ever worry if Im still your man?

Dont you ever worry coz I got your back.

Baby dont you worry if Im coming home.

Dont you ever worry coz Im coming home.

Ill give you my heart, my soul, my body, my love, my money, my time , my all

I tell you the truth no lies just you and I you dont have to worry not at all. Ooh no. Baby I just wanna prove that I love you wanna kiss wanna touch wanna squeeze and hug ya.

Wanna treat you like the best thing you are, like the treasure you are, like the queen that you are, like the woman you are, like the love that you are. Sing harmony. Baby I just wanna prove that I love you wanna kiss wanna touch wanna squeeze and hug ya.

Wanna treat you like the best thing you are, like the treasure you are, like the queen that you are, like the woman you are, like the love that you are. You are ! Dont you ever worry if Im still your man?

Dont you ever worry coz I got your back.

Dont you worry if Im coming home.

Dont you ever worry coz Im coming home.

Ill give you my heart, my soul, my body, my love, my money, my time , my all

I tell you the truth no lies just you and I you dont have to worry not at all. Ooh no. Repeat. Gurl you may never know how much I love ya.
