

# Sweetest Chill

## Siouxsie & The Banshees

Hearing you - In my sleep  
Feeling you - Your cadence seeps  
Whispering in flashback - The spectres of you memories  
Fall in glistening showers - Such a tender descent  
Intones this haunting lament

The sweetest chill

Fearing you - But calling your name  
Icy breath - Encases my skin  
Fingers like a fountain of needles  
Shiver along my spine  
And rain down so divine

The sweetest chill

A drowning so sublime - Spins in a heavenly climb

Calling you - tears thaw my sleep  
Wanting you - this hoary web is weaved  
From this strange confusion  
Grows a perverse communication  
It entralls me and coils me around

The sweetest chill

Enchantment ebbs and whirls - the sweetest chill  
Enchantment ebbs and whirls - oh the thrill  
The sweetest chill
