

Our First Kiss

Billy Gilman

The last thing on my mind when I close my eyes
Ooh ooh ooh, my, my is our first kiss It might've been rainin', it might've been sunny
It could've been your house, it might've been Monday
The truth is I'm clueless, a little bit hazy
But when I remember, I can almost taste it The last thing on my mind when I close my eyes
Baby, ooh ooh ooh, my, my, is our first kiss A tiny bit nervous, I'd never been kissed
Did you open your eyes? 'Cause I never did
I couldn't say nothin' 'cause I let it sink in
'Cause I was just waitin' to kiss you again The last thing on my mind when I close my eyes
Baby, ooh ooh ooh, my, my is our first kiss
Baby, the first thing on my mind when I open my eyes
Baby, ooh ooh ooh, my, my, that's as far as it gets Baby, the last thing on my mind when I close my eyes
Baby, ooh ooh ooh, my, my is our first kiss
Baby, the first thing on my mind when I open my eyes
Yeah, ooh ooh ooh, my, my, that's as far as it gets Baby, the last thing on my mind when I close my eyes
Baby, ooh ooh ooh, my, my, is our first kiss
